12			24		

Red counties represent locations where cucurbit downy mildew symptoms have been observed in 2024. Triangles represent counties with a spore trap collecting data on the presence of *P. cubensis* clade 2 (downy mildew of cucurbits; infects cucumber, cantaloupe), and *P. cubensis* clade 1 (downy mildew of cucurbits; infects acorn squash, butternut squash, pumpkin, watermelon).
